**“Disaster Health Resilience”**

**Learning Objective:** Address disaster health resilience at the community level and the needs of the at-risk individuals

**Description:** Disasters and violence are ever increasing events. They highlight the vulnerability of different communities and ability for long-term recovery planning addressing environment, psychological, and physical health. This year the panel will address major planning issues identifying health risks, addressing knowledge gaps, and designing remedial programs based on useful recovery indicators to promote community health resilience.

**Panel Moderator:** Arnauld Nicogossian Distinguished Research Professor, SPP, GMU.
1. Principles for Developing Community Disaster Resilience, Jeffrey Stiefel, DHS [20 minutes]
2. National Health Security, Community Health Resilience, and At-Risk Individuals, Darrin Donato, HHS-ASPR [10 minutes]
3. Best Practices in Community Resilience Planning, Paula Scalingi, Bay Area Center for Regional Disaster Resilience and The Scalingi Group [10 minutes]
4. Summary and Discussions (20 minutes)
